Montréal, QC

WORK EXPERIENCE

Becklar
Alarm Centre Operator

Laval, QC
April 2026 – Present

- Analyze and process a high volume of real-time alarm signals under strict security and compliance protocols
- Make rapid critical decisions in emergency situations to ensure client safety
- Act as primary liaison between clients and emergency services, maintaining clear and professional communication
- Rigorously document each intervention according to established operating procedures

Sport Experts
Online Sales Clerk (Seasonal)

Laval, QC
Aug 2025 – Dec 2025

- Processed orders and managed customer returns via internal digital platforms
- Ensured data accuracy and order compliance prior to shipment
- Collaborated effectively with the team during peak demand periods (Black Friday, Back to School)

La Baie D'Hudson (Hudson's Bay)
Sales Advisor — Ralph Lauren / Shoes

Laval, QC
Nov 2024 – Jun 2025

- Delivered personalized customer service focused on identifying needs and proposing tailored solutions
- Developed strong product knowledge across brands and trends to better advise clients
- Managed in-store operations including returns, shelving, inventory, and cash transactions

Uniprix
Pharmacy Technical Assistant

Laval, QC
Jul 2021 – Jan 2022

- Tracked narcotics intake and output in Excel with precision and strict confidentiality
- Managed medication inventory and responded to client inquiries in person and by phone
- Handled cash transactions and payment processing

PROJECTS

Terrarium — Roblox Game
Game Designer & Developer

Personal Project
2026 – Present

- Designed and developing a multiplayer idle simulator on Roblox
- Architected 19 server-side game systems in Luau including economy, data persistence, events, and monetization
- Enforced strict security rules: all game logic server-authoritative, rate-limited RemoteEvents, server-only DataStore writes
- Integrated a local AI coding assistant (Qwen2.5-Coder 14B) into the development workflow to accelerate implementation

Personal Finance Dashboard
Full-Stack Developer

Personal Project
2025 – Present

- Built a personal investment tracking website with live stock prices via the Finnhub API
- Tracks portfolio holdings, unrealized P&L, news catalysts, and investment thesis notes across 15 positions specialized in AI Bottlenecks
- Manages CAD/USD currency conversion in real time for cross-border holdings
